The SDNI-REU offers a 10-week summer research experience for undergraduates at UC San Diego. Students are paired with leading researchers in science and engineering fields. Research areas include: NanoBioMedicine, NanoPhotonics, and NanoMagnetics. The goal is to prepare students for advanced studies in a Ph.D. program. Participants are paid a $4,500 stipend, housing, and up to $500 in travel expenses.

### IMPORTANT DATES

<tr>
<td>March 15</td>
<td>March-April</td>
<td>June 26-Sept 1, 2017*</td>
</tr>
</tbody>
</table>

*REU participants are expected to arrive the weekend before program begins. Participants are expected to participate full-time during the 10 week program. Participants may not enroll for classes, concurrent summer programs, or hold other employment during the period of the program.

### ELIGIBILITY

Students from bioengineering, material science, chemical engineering, mechanical engineering, photonics, engineering physics, bio-physics, biology, physics, computer science, and engineering backgrounds are encouraged to apply.

Applicants must:

- Be a U.S. citizen
- Students from racial or ethnic minority groups, low-income family backgrounds, first generation U.S. citizens, and first generation college students are especially encouraged to apply.
- Have a minimum overall 3.0 GPA (on a 4.0 scale).
- Be entering their junior or senior year in college and not scheduled to graduate before Sept 2017.

### BENEFITS

- $4,500 stipend
- Room in UC San Diego housing facilities
- Up to $500 in travel expenses
- GRE preparation course at no additional cost
- Weekly seminars to help prepare for graduate school
- Access to campus facilities such as libraries, computer labs, etc. (gym fees are extra)

### HOW TO APPLY

For more information and to apply, visit our website at: [http://sdni.ucsd.edu/reu.php](http://sdni.ucsd.edu/reu.php)
